

For Next Day

- Compile and run the utilities from the lecture. Create four graphs, each with 4 samples of 10, 1000, 100000, 10000000 points):
 - Number of points versus file size for text files
 - Number of points versus file size for binary files
 - Number of points versus execution time for text files (writing)
 - Number of points versus execution time for binary files (writing)
- Comment on what you've found.
