

## forNextDay()

- Read through the Course Syllabus on the LMS
- Research and write a paragraph describing Von Neumann Architecture
- Research and write a paragraph describing the Stored Program Concept

1

## ForNextDay()

- Read Chapter 1 of the Text
- Create `first.c`
- Compile it to preprocessor (`-E`) and examine it
- Compile and link it to an executable named `mine` (`-o mine`)
- Execute it with several words, as in the example slide.
- Write an explanation of what the `printf( )` statement is doing.
